LARGE SHRINKAGE IN VOLUME OF SALES.

New York, Jan. 9.—The pressure to all stocks which appeared urgent and precipitate yesterday, was decidedly moderate today, and after a short time gave place to some inclination to buy. The deplace to some inclination to buy. The dedo coupon ... 129½ do 1st inc ... 27½ do coupon ... 129½ do 1st inc ... 27½ Amer Tob 4s... 77 M & St L 4s... 94 do 6s 109½ M K & T 4s... 98½ mand seemed to come largely from uncovered shorts who had followed the rapid decline yesterday. Some appearance of supporting orders there was also. These diminished to almost nothing on the advance in prices. The large shrinkage in the day's total of sales is evidence of the narrow proportions of the market. Trading sank into stagnation at times during the day. The most conspicutions continuance of the liquidating tendency today was in the Southern Railway stocks and in the Hill railroad stocks. It was assumed yesterday that the sales of Southern Railway were due to the settlement of the estate of the late president, but there were rumors in circulation that the maintenance of the dividend on the preferred stock was in doubt. These humors, however, were siven disclaimers from official sources. Northern Pacific sold with the rights deducted, and the rights also were dealt in on the stock exchange. Compared with yesterday's price of 185% for the stock with rights, the price today went as low as 159 and the rights as low as 22%. Great Northern professed was more professed was also. developments regarding the finances of these companies are supplemented by effective comment and rumors of probable effects. The day's interests in the subject was largest in the reports of the intended departure for foreign countries of some of the capitalists whose testimony had been expected to be taken by the commission.

The ruling for call loans today was higher than yesterday, but the rate eased after the opening and did not touch yesterday's maximum. Rates for time money were rather easier in tone, although not quotably changed. The inclination of leners to take funds out of call loans and place them on time continues. The shifting of loans is attributed in part to the necessity of banks to restore their reserves to the 25 per cent level before they are free to disburse dividends, for which the usual period is now at hand. London discounts hardened today and discountinged a hope that the bank of England's discount rate would be lowered at the weekly meeting of the governors tomorow. The imperial bank of Germany made a very strong return in gain of the continues of the continued knowledge and successed to the continued knowledge and successed to the continued knowledge and successed to the winter wheat belt, fears being expressed for the safety of the fall sown crop. As the session advanced, however, reports from the south-swest indicated that, little damage had been done by the cold wave, and these ers. Throughout the day the principal derest. Trading was quiet the last hour and prices showed a tendency to weaken. The market closed steady. May opened a shade to 16 lower at 75% as shade higher for the day. The corn market was firm all day because of good demand by commission houses and cash interests. Offerings were light and came largely from pit traders. AN ACID BLOOD POISON

Rheumatism is an acid blood poison, and the causes that produce it are often silently accumulating in the system for years. Poor digestion, stomach troubles, weak kidneys, torpid liver, and a general inactive condition of the system leaves the refuse and waste matter, which should be carried off, to sour and form uric acid, which is absorbed into the bleod. When the blood is in this acid-charged condition, it deposits the poisons and irritating particles with which it is loaded in the muscles, nerves, joints and bones. Then Rheumatism gets possession of the system, and life is made miserable by its pains, aches and discomforts. The changing of the weather, exposure to cold and dampness, etc., always increase the trouble, and so severe does the pain become that quick relief must be had. A good liniment or plaster is often helpful, but it should be remembered that relief from such treatment is only temporary, because the

trouble is in the blood and cannot be removed by external applications. S. S. S. cures Rheumatism by ridding the blood of the cause. It goes down into the circulation and by invigorating and purifying the blood of the acid-poison and sending a stream of fresh, rich blood to all parts, relieves the pain, reduces the inflammation, and permanently cures this painful disease. S. S. S. is the only safe treat-

ment for Rheumatism, because it does not contain a particle of mineral in any form to damage the system. Book on Rheumatism and any medical advice desired sent free. THE SWIFT SPECIFIC CO., ATLANTA, GA.

DECIDIALEVEILE A light beer is just as essential as a moderate luncheon for a level head during business hours. Heavy, sticky, "bilious" beers are decidedly out

of order during the business day—in fact they

are out of place any time. A beer that requires

digestion, instead of aiding digestion, is not the beer

for you. The modern demand is for a light beer.

The Beer You Like—Is The Lightest Beer Brewed.

It is as unique and different in this respect as it is in taste and quality. It is brewed especially to meet the refined American taste of today.

Luxus is "The Beer You Like" -- it is what you have been looking for. It is beyond all argrument, the best beer brewed. Luxus is brewed entirely from the finest Bohemian hops, malt made from the world's best barley, choice, selected Imported Indian rice, and pure water from our Artesian Springs.

Being a light beer, wholesome and appetizing, you can drink as much as you like of Luxus, with no after effect but a satisfied palate and a delicious sense of refreshment in the mind and body.

Test it today at luncheon.

Luxus is really different—it is not ordinary beer—Luxus is the most exqusite refinement of the brewers' art.
